Background

A partnership of several downtown businesses and organizations was formed in the fall of 1995. These entities identified a need to improve accessibility to their organizations, reduce the demand for parking and to improve traffic circulation within downtown St. Petersburg. The concept of developing the *Looper*, downtown trolley was introduced. The first day of service was Tuesday, April 2, 1996.

The Looper Group, Inc., a private not-for-profit 501(c)(6) organization was formed. This organization underwrites the cost of operating the system, maintains schedules and routes and insures the vehicles. The Central Avenue Shuttle is operated by the not-for-profit. The program is administered by the St. Petersburg Downtown Partnership, Inc.
